

Toto som si nemohol nechať len pre seba, server techonline pripravil webinar s aktuálnou tématikou.

Webinar je naplánovaný na 13:00 vo utorok 04.05.2010.

Registrácia je na [tejto adrese](#).

Obsah bude v Anglickom jazyku....

Migrating Microchip PIC18 or PIC24 to ARM Cortex-M MCU Webinar Topics

Attendees will learn how the Cortex-M processors:

- Adapt to current software
- Compare to current microcontrollers
- Deliver code density better than an 8 or 16-bit MCU
- Facilitate software reuse and portability with a consistent look and feel using CMSIS
- Provide easy software development (C-friendly) and debug features

The webcast will be presented by Richard York (Director of Product Marketing, ARM Processor Division, ARM) and Bryan Lawrence (Solutions Marketing Manager, ARM).
